

Leah Kim

(925) 719-9394 lk.leahkim@gmail.com [Portfolio](#) [LinkedIn](#) [Github](#) San Jose, CA

SKILLS: JavaScript, NodeJS, Express, React, Redux, Python, Flask, SQL, PostgreSQL, HTML, CSS, Docker, jQuery, Heroku, AWS, Git

PROJECTS:

shelf Express, PostgreSQL, Sequelize, ReactJS

[live](#) | [github](#)

A full-stack single page application clone of Yelp, that focuses on artisanal grocery stores in the Bay Area.

- Modeled UI and UX with minimalistic CSS and HTML to allow for intuitive and user-friendly experience.
- Integrated SQL to build backend databases for users and all subsequent user actions (businesses, reviews).
- Remotely stores file uploads in the cloud via AWS S3.

Memestagram Flask, PostgreSQL, SQLAlchemy, ReactJs

[live](#) | [github](#)

A full-stack single page application clone of Instagram, where users can share their favorite memes.

- Utilized Flask and SQLAlchemy to build backend database for user and owner data.
- Applied react hooks to develop search bar function using a Javascript algorithm to filter and sort users by their name..
- Implemented AWS in order to upload and store photos for posts through S3.

Nightmarebnb Express, PostgreSQL, Sequelize, ReactJS

[live](#) | [github](#)

A full-stack single page application clone of Airbnb, involving haunted houses as listings.

- Incorporated PostgreSQL database to create and store spots and user favorites.
- Implements core CRUD functionalities with relevant associations.
- Created dynamic UI for adding a new business that gives preview of business' images on form page.

EXPERIENCE:

Food Service

Cafe Dazzling

January 2017 - September 2018

- Experienced server that was in charge of training and managing new employees and mentoring them to be productive servers, food runners, hosts, and bartenders.
- Flexible and collaborative work ethic that created a positive work environment for the team and a good relationship with the customers.
- Handled heavy volumes of customers daily and strengthened interpersonal skills as well as effective verbal communication with the staff and clientele which resulted in a high 98% customer satisfaction.

Psychology Research Studies

Arizona State University and San Jose State University

August 2014 - July 2020

- Led clinical trials in Arizona State University and San Jose State University to assess the psychological impact of violent images on adolescents and related behavioral influences thereafter.
- Volunteered in the research of how taste is perceived based on one's mental state and verbal and visual cues before the ingestion of edible products.
- Researched sleep cycles in adults between the ages of 18-25 to gauge the effects of lack of sleep on behavior and quality of retention to information.

EDUCATION:

San Jose State University - BA Psychology, 2018-2021

Diablo Valley College - AS Psychology, 2015-2017

AppAcademy - 2021-2022 - Immersive software development course with a 5% acceptance rate that focuses on full stack web development. 100+ hour weeks learning and developing skills around technologies needed in the workforce and over 300+ hours pair programming with other students to learn and experience new technologies.
